NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

In years past this newspaper has usually waited until the week of the primary elections to endorse any of the candidates but we do not believe that we should wait that late this time. With the mess that our state government is currently in, it seems advisable to pick a candidate for governor that holds out some hope of cleaning things up and backing him down to the wire.

And out of the top four candidates the only one that we believe can offer us any real constructive change is Dolph Briscoe.

There are two ways that one can go about choosing a candidate for governor, or any other elected post for that matter. One is to eliminate those you feel are undesirable and see who you have left and the other is to look at their strong points and see who comes out on top.

Either way you go we believe that you will come up with the same man for governor — Dolph Briscoe.

Going from either direction it is easy for us to eliminate Mrs. Farenthold. Anyone who wants to do away with the Texas Rangers and supports George McGovern for president can not represent the majority of Texans.

It is just about as easy to eliminate Preston Smith. If you forget about the stock scandal and just remember what kind of governor he has been for the past four years, this is enough to take care of him.

We have always held out high hopes for Ben Barnes but we are beginning to wonder about him now. While he may not have been a part of the most of the mess in Austin, he at best has been looking the other way.

As Gene Carter, publisher of The Wise County Messenger in Decatur says in his column, "We are going to give all our support to Dolph Briscoe because we think he is a man that we can support openly. We don't have to say 'We're for Briscoe,' in a whisper, or with a side glance to see if someone is listening. We're not afraid he will embarrass us when he gets to Austin, and that's more than we can say for Ben Barnes, Preston Smith or Sissy Farenthold."

We don't know how strong a race Briscoe can run in the big cities but know that if the people in the rural areas will really turnout May 6 and vote for him he can make it.

His entering this race gives us an opportunity for a change, if we will just take it. But just sitting back and hoping that he will get elected and clean things up will not get the job done. If you are for Briscoe then you need to get to work and support him because it is the people of Hamlin and other small communities across the state that can elect him if they will go to work.

We notice that the more liberal Democratic candidates for president (and this seems to include most of them) are wringing their hands over the stepped up bombings of North Vietnam and saying that Nixon is pushing us to the brink of all out war again. We could understand and appreciate their stance a little better if they had shown similar concern when the North Vietnamese launched their recent invasion of the South.

We sometimes wonder if these people are campaigning for president of the United States or of North Vietnam.

Although they both may be against the law, there seems to be two different types of cases involved in this newest mess in Austin — nepotism. There seems to be a number of Representatives who have hired relatives of other Representatives in good faith and those hired performed their duties in good faith.

Then there seems to be those who

HONORED AT BANQUET — Mr. T. C. Blankinship, center, was honored at the annual FFA Banquet Friday evening. Paying tribute to him, from left, are Hulan Harris of Big Spring, Area II supervisor; Harold Eades of Crosbyton, former teacher in agriculture department here; Bob Clifton, former student and first state officer from Hamlin; Kenneth Holloway of Dumas, former student; and L. M. Hargrave of Lubbock, Agricultural Education Department at Texas Tech University.

AT ODESSA—

Cork Qualifies for Four Events At Regional Meet

Bill Cork, Hamlin's sophomore track sensation, qualified in four of the five events he entered for the regional track meet to be held in Odessa Friday and Saturday. Cork qualified in the high jump, broad jump, 220-yard dash and anchored the 440-yard sprint relay team in the District 7-AA meet in Anson Thursday.

Also qualifying for the regional meet with Cork was David Willis, Albert McAfee, Alfred McAfee and Milton Jones. Only first and second place finishers in the district meet move on to the regional meet. Willis and the two McAfees qualified in the 440 relay, with Willis also qualifying in the 120 hurdles. Jones qualified in the pole vault.

Running without freshman Johnny Jones who pulled a leg muscle the week before, the Hamlin Track team finished in third place with 105 points in the district meet behind Haskell with 123 1/2 and Stamford with 106 1/2.

The field events at the regional meet will get underway at 4 p.m. Friday at Odessa, with the finals in the running events starting at 1 p.m. on Saturday.

Johnny Jones will go as an alternate on the relay team. Head coach Deane Wright and Coach Gary Williams will take the athletes.

Cork broke two records in the district meet. His 22-1 1/4 leap in the long jump set a new record and his 6-2 in the high jump was also a new record. He shares this record with Joe Krut-schmer of Haskell who also

jumped 6-2, but had one more miss than Cork.

Hamlin results in the district meet were:

Long Jump — 1 Bill Cork, 22-1 1/4 (new record, old record 21-1 1/2 by Robert Bolden of Hamlin, 1970).

Shot Put — 3. Ray Scifres.

Pole Vault — 2. Milton Jones, 10-0.

Discus — 3. Milton Jones, 5. Steve McKissack.

High Jump — 1. Cork, 6-2, (new record, old record 6-0 by Rick Waller of Hamlin, 1970).

27 YEARS SERVICE—

'Mr. B' Honored At FFA Banquet

"T. C. Blankinship has been a teacher of vocational agriculture by choice, not chance. He has cherished the opportunity to do something constructive for all people in his community. He has specialized in the business of making men out of boys." This statement, made by L. M. Hargrave of the agriculture education Department of Texas Tech University, was one of the many tributes paid to Mr. Blankinship who was honored at the annual Future Farmers of America awards banquet.

"Mr. B." as he is called with respect and affection has announced his retirement after 27 years as teacher of vocational agriculture in Hamlin High School.

The banquet was attended by some 50 FFA members and 130 guests.

The honor paid to Mr. Blankinship came at the close of the presentation of annual awards.

Kenneth Holloway of Dumas Moore County Agent, was a member of the Class of 1946, Mr. Blankinship's first year in Hamlin. He cited his teaching ability and personal integrity as a strong influence on his life as a student and "Mr. B's" continuing influence on his life.

Harold Eades, vocational agriculture teacher with Mr. Blankinship for nine years before moving to Crosbyton, pointed out the banners earned by FFA students through the years which were used as decorations. These, he said, show great achievement to a great man. He built leadership and character by example and in teaching, he added.

Hulan Harris of Big Spring, Area II supervisor of vocational agriculture, Texas Education Agency, gave praise for the honoree's work and cooperation.

Bob Clifton, the first state officer to serve from Hamlin, now a student at Texas Tech University, related that "vo-ag and FFA have deep meaning for me," and attributed much to Mr. Blankinship's leadership.

Mr. Blankinship was quick to express his appreciation and give credit to his co-workers, Mr. Eades, and Milburn Wink.

During the awards presentation Mr. Blankinship was

named to honorary membership.

Climaxing the banquet was the presentation of a plaque to Mr. Blankinship and a check for \$100 gift from former students, presented by Jack Willingham.

During the presentation of awards Randy Elmore was named Star Green Hand; John Hudson, Star Chapter Farmer; Ricky Gruben, Star Lone Star Farmer; and Carlos Gonzales was recipient of the Fred B. Moore Jr. agriculture award.

The scholarship award was presented to Randy Elmore. Certificates for scholarship were given Rodney Rackley, Carlos Gonzalez, Larry Jayroe, Rickey Gruben and Ray Sonnenburg.

Rodney Rackley received the Leadership medal. Certificates were presented to Rickey Gruben, Johnny Howard, Carlos Gonzalez, Larry Jayroe, Kenneth Payne and Guy Clifton for senior chapter conducting, over 85 percent.

National Foundation awards went to Ruben Romero, poultry farming; Carlos Gonzalez, livestock farming; Rickey Gruben, crop farming; Larry Jayroe, agricultural electrification; Rickey Gruben, soil, water and air management; Johnny Howard, fish and wild life management; Kenneth Payne, outdoor recreation; Steve Evans, ornamental horticulture.

Chapter awards included David Thompson, rabbit farming; Rickey Gruben, beef farming and Carlos Gonzalez, swine farming.

Rodney Rackley, FFA president, presided, and introduced guests.

Larry Jayroe gave the invocation.

New officers introduced for 1972-73 were Rickey Gruben, president; Johnny Howard, vice president; Kenneth Payne, secretary; David Thompson, treasurer; John Hudson, reporter; and Randy Elmore, sentinel.

Plans for the banquet were made by FFA officers, members and Milburn Wink, advisor.

Albritton Motors Is Low Bidder On Patrol Car

The Hamlin City Council, meeting in regular session here Monday evening, voted to accept the low bid of Albritton Motor Company for a new police car to replace one damaged in a wreck last week.

The new price of the Chevrolet was \$2950.00. Connally Ford Sales had submitted a bid of \$2995.00 on a Ford sedan.

Hollis Madden, outgoing Mayor, opened up the council meeting and after taking care of the reading of the minutes of the previous meeting, turned the reins of the city government over to the newly elected Mayor, Joe E. Ford. Richard Young Jr. was also sworn in as a new councilman. The other newly elected councilman, David Casey, was out of town

and will be sworn in at a later date.

In turning over the duties of mayor to Ford, Madden expressed his appreciation to all of the councilmen for their cooperation during his tenure of office.

The council devoted a great deal of discussion to the city's South Lake. The council discussed the leasing of lots around the lake, providing toilet facilities and general control over the lake. The matter was turned over to the parks and lakes committee of the council, David Casey and Robert Fowler, and they were instructed to outline a master plan for the lake area.

As a first step, the council voted to have City Attorney Jack Willingham to look into the possibility of the city annexing the lake into the city limits. A few years back the city annexed the West Lake into the city limits.

In other matters the council voted to write off the water bill of the Hamlin Foundation for the operation of the swimming pool and voted to install a street light at N. W. Ave. E. and seventh Street.

Box or Sack Grass Clippings

City residents have been urged by city officials to put their grass clippings in boxes or plastic bags for the city garbage pickup service.

City Superintendent Ellis West said that it delays the pickup service too long for them to pick up the loose clippings and makes it impossible for them to maintain their regular schedule.

WIN FIRST — Becky Wright, left, and Shelley Holtz qualified for regional competition by winning first in tennis doubles in district contests held here last Wednesday and Thursday. They are shown with their coach, Deane Wright. The girls compete in Odessa Friday afternoon.

The community of Tuxedo was organized into a community club Monday night. The organization meeting was held in the school house with a very good attendance of people from the community, both men, women and children.

A large, thoroughly modern structure is soon to rise on the splendid vacant lot that was originally set aside for public service. Within a few weeks all preliminaries will have been completed for the beginning of \$125,000 high school.

went far beyond this.

Our own state senator seems to be way out on this limb — and there appears to be a long line of people just waiting to saw this limb off for him.

While we feel that if the Legislature is going to pass a law on nepotism then the members certainly should abide by it, we do not necessarily feel that nepotism in itself is always bad. We can even see some advantages for a man to have his wife working for him as secretary — that is if she really works.

We can not find as much fault with the nepotism law as we can the law that permits a senator to spend \$2,400 a month for expenses. That is a lot of temptation.

Mr. and Mrs. Joe Stewart returned home last Tuesday after a trip to Benton, Ark., where they visited one of their daughters, and her family, Mr. and Mrs. M. D. Gullion, Doug, Nancy, and Bruce. They enjoyed fishing while there. From there they flew to New Orleans, La., to visit a son, Walter Willis, and a grandson, Jerry Cooper.

shalt love the Lord thy God with all thy heart, and with all they soul, and with all thy strength, and with all thy mind; and thy neighbor as thyself.

Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose . . . and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

LETTER TO EDITOR

Writer Urges Buy At Home

Dear Editor:

I know there have been a few letters written to you on trading at home, but I would like to share my views.

I am not employed by a business that depends on trade in Hamlin for support, so I can speak out easier than a merchant. But, several other things about Hamlin's well-being do affect me. For instance, the value of my home and others depends on Hamlin's stability. Also, the school system, city services, etc., depend on the economy of the town.

I have tried to trade at home more in the last few months and am well pleased with the results. Pretty regularly I have had to take something back to Abilene for exchange, which takes time, and also some of the things you save money on are not as good quality as what you looked at here.

A friend of mine says he just as well kiss a \$20 bill goodbye when he enters the Abilene City limit. Usually about that much does go somewhere that you can't account for.

I do trade at Abilene some, I suppose variety is good, but I try to look at home first and avoid "impulse buying" when I get there, and I am a lot better satisfied for doing this.

Sincerely,
A Hamlin Supporter

Neinda Philosopher Wants Commission To Study Effect of World On Children

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One confronts a serious problem this week, then dodges. Probably the effect of listening to the candidates.

Dear editor:

As I understand it, a Washington commission after a year's study on the effect of television on children has reported that America should take a second look at the sort of T.V. fare being served up to its youngsters. Too much violence,

crime and that sort of thing. Aside from the fact that you can indeed get a second look at the programs, now that the season for re-runs has started, I have been thinking about this matter and have come to the conclusion the commission should broaden its investigation.

It should now make a study of the effect of the world on children.

There's far too much violence, crime and that sort of thing going on in the world to allow children to be brought up in it.

How can we expect children to grow up and be as good as we are when today's news is crammed with crime and violence and yesterday's history from the time history began is filled with the same? In this connection it ought to be pointed out that man who started a newspaper with nothing but good news in it went broke.

Shielding a child from television is one thing, but shielding him from the world

presents a problem which I will leave to the next commission, on which I will not have time to serve.

The television problem however is not limited to the United States. I read in a paper last night that Russian parents are complaining about children's T.V. programs over there. They say they aren't interesting enough. Can't keep a kid glued to the set.

One Russian mother said "I saved my money and bought a television set especially so that while I'm at work my son would not pointlessly chase a football outdoors all day — and that with bad children at that. But there are a few programs for him and most of them are uninteresting."

This just goes to show how problems can vary around the world. Over here we're trying to cut down on our children's T.V. viewing so they'll get out and play, over there they're trying to increase their children's viewing so they'll stay indoors and not be outside playing football.

I thought so. Who has Russia ever beat in football?
Yours faithfully,
J.A.
